YOGESH PAGAR

Software Engineer | Full Stack Developer | MERN Stack Developer

Nashik, Maharashtra, India | +91 8999711919 | yogeshpagar1661@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Entry-level Software Engineer and Full Stack Developer with hands-on experience developing web applications using JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in REST API integration, frontend–backend integration, authentication, database-driven applications, and AI-powered application features. Contributed to PillSync, an intelligent medication management platform, and developed AI assistant and IoT-based monitoring projects. Strong foundation in object-oriented programming, data structures, algorithms, software development life cycle, debugging, and collaborative development. Seeking Software Engineer, Associate Software Engineer, or Full Stack Developer opportunities.

TECHNICAL SKILLS

Programming: Java, JavaScript (ES6+), Python, SQL
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, API Integration
Databases: MongoDB, MySQL, CRUD Operations
Software Engineering: OOP, Data Structures and Algorithms (DSA), SDLC, Agile, Debugging, Testing, JWT Authentication
AI & Emerging Tech: Gemini API, OpenAI API, OCR Integration, Machine Learning, IoT, Blockchain
Tools: Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Software Development Intern | Infosys Springboard
Remote | August 2026 – October 2026

- Contributed to PillSync, an intelligent medicine reminder and medication tracking platform.
- Worked on dosage scheduling, dosage analysis, input validation, and frontend–backend integration.
- Integrated application modules and REST APIs supporting medication tracking and reminder workflows.
- Collaborated with team members on application testing, debugging, integration, and feature development.

Software Development Intern | Anvistar ITS Pvt. Ltd.
Remote | January 2025 – February 2025

- Developed interactive web application features using React.js and JavaScript.
- Built reusable UI components and responsive interfaces to support consistent user experiences.
- Collaborated with developers to implement application requirements and maintain clean, readable code.

PROJECTS

PillSync — Intelligent Medicine Reminder and Medication Tracking Platform | React.js, Python, REST APIs, OCR, AI | **Live Demo**

- Developed medication management workflows covering dosage scheduling, validation, reminders, and stock tracking.
- Contributed to frontend–backend integration and coordinated application modules for medication-related workflows.
- Collaborated on OCR-based medicine recognition and AI-assisted refill prediction and low-stock alert features.

Shifra AI — AI Voice Assistant SaaS | React.js, Node.js, Express.js, MongoDB, Gemini API | **Live Demo**

- Developed a MERN-stack AI voice assistant integrating speech-to-text and text-to-speech capabilities.
- Integrated the Gemini API to support AI-generated responses and conversational functionality.
- Built an embeddable website widget for business knowledge access and AI-assisted interactions.

Environmental Monitoring System with Blockchain Audit and ML Forecasting | IoT, ESP32, Python, ML, Blockchain

- Developed an IoT-based system for real-time environmental data collection and monitoring.
- Incorporated blockchain concepts to support secure and traceable sensor data records.
- Worked on dashboard-based data visualization and machine learning-based environmental forecasting.

EDUCATION

Bachelor of Engineering (B.E.) — Information Technology | Savitribai Phule Pune University | 2022–2026 | CGPA: 7.50/10

HSC (Science) — Maharashtra State Board | 76.83%

SSC — Maharashtra State Board | 82.20%

CERTIFICATIONS & ACHIEVEMENTS

Python for Data Science | Full Stack Development | Principles of Generative AI — Infosys Springboard | TechFusion2K25 — National-Level Technical Event

SOFT SKILLS

Problem Solving • Communication • Teamwork • Time Management • Adaptability
