YOGESH PAGAR

Software Engineer | Full-Stack Developer (MERN) | AI Solutions Developer

yogeshpagar1661@gmail.com +91 8999711919 Nashik, Maharashtra, India LinkedIn GitHub Portfolio

PROFESSIONAL SUMMARY

Results-driven **Software Engineer** and **Full-Stack Developer** with hands-on experience in building scalable web applications using **React.js, Node.js, Express.js, and MongoDB**. Specialized in RESTful API engineering, JWT authentication, and integrating cutting-edge AI models (Gemini & OpenAI APIs). Proven ability to deliver high-performing UI components, responsive designs, and robust backend services.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Java, Python, HTML5, CSS3
Frontend:	React.js, Redux, Tailwind CSS, Bootstrap, Responsive UI/UX
Backend & DB:	Node.js, Express.js, MongoDB, MySQL, REST APIs, JWT Auth
AI & Emerging:	Gemini API, OpenAI API, Machine Learning, IoT (ESP32), Blockchain
Tools & Methods:	Git, GitHub, Postman, VS Code, SDLC, Agile Methodology

PROFESSIONAL EXPERIENCE

Software Development Intern | Anvistar ITS Pvt. Ltd. (Remote, Pune) — Jan 2025 – Feb 2025

- Engineered responsive full-stack features using **React.js** and **JavaScript**, increasing component reusability by **35%**.
- Built **15+ reusable React UI components** ensuring cross-browser compatibility and optimized performance.
- Collaborated within an Agile development framework adhering to strict code review guidelines and clean architecture principles.

Data Science Intern (Python) | Gyanteerth (Pune) — Jan 2025

- Utilized **Python (Pandas, NumPy, Matplotlib)** for data extraction, exploratory analysis, and visual reporting.
- Implemented algorithmic solutions for structured datasets, enhancing data processing efficiency across mini-projects.

KEY PROJECTS

AI Voice Assistant SaaS (Shifra AI)

Technologies: React.js, Node.js, Express.js, MongoDB, Gemini API, Tailwind CSS

- Architected an AI-powered voice assistant with real-time **Speech-to-Text (STT)** and **Text-to-Speech (TTS)** capabilities.
- Integrated **Google Gemini API** for intelligent natural language processing and context-aware responses.
- Developed an embeddable customer service web widget and robust REST APIs for enterprise knowledge base indexing.

Smart Environmental Monitoring System with Blockchain Audit & ML

Technologies: Python, IoT (ESP32), Machine Learning, Blockchain, Sensor Analytics

- Designed a real-time IoT monitoring system using **ESP32 microcontrollers** for continuous environmental data collection.
- Implemented **Blockchain cryptographic hashing** for secure, tamper-proof audit trails of sensor logs.
- Trained **Machine Learning regression models** to forecast ambient temperature and air quality trends on dynamic dashboards.

GenAI Resume Builder System

Technologies: React.js, Node.js, Express.js, MongoDB, OpenAI API, Tailwind CSS

- Built an interactive MERN full-stack application enabling users to automatically generate resume descriptions via **OpenAI API**.
- Engineered live WYSIWYG preview renderers, real-time PDF generation engine, and secure JWT-based user authentication.

EDUCATION

Bachelor of Engineering (Information Technology) — Savitribai Phule Pune University 2022 – 2026 | **CGPA: 7.50 / 10**

HSC (Science) — Maharashtra State Board 2022 | **76.83%**

SSC — Maharashtra State Board 2020 | **82.20%**

CERTIFICATIONS & SOFT SKILLS

- **Infosys Springboard Certifications:** Python for Data Science (2025), Full Stack Development (2025), Principles of Generative AI (2026)
- **Technical Event:** TechFusion2K25 National Level Technical Event
- **Soft Skills:** Analytical Problem Solving • Technical Communication • Cross-Functional Teamwork • Adaptability
